

## Lack of Understanding- Solutions

1. What does Theresie Tungalik believe the solution is to ending seal hunt protests? What method does she think is questionable? Explain why you agree or disagree.

- *Education through different forms of media i.e. video, books, film*
- *Handing out pamphlets at a protest is questionable because the information is given in a one time format. It is difficult to measure if this changes someone's opinion or if they are going home with more information.*

2. What is country food? Give some examples, if any, of country food that you eat.

- *Country food is food that is harvested from the land to sustain a way of life. It can be hunted or grown.*
- *Some examples could be: walrus, seal, caribou, berries, fish*

3. Why does Tungalik state that it is a battle of "truth against money"?

*The "truth" is helping protesters to understand how the seal is hunted and used in northern Canada. It is expensive to educate people on a way of life they don't understand.*

4. Why do you think the article is called "Lack of Understanding"? Come with another catchy title for the article.

*Answers will vary.*
